Immunization Requirements and Information

Minnesota law requires every student enrolled in school to be immunized against diphtheria, pertusis, tetanus, polio, measles, mumps, rubella, hepatitis B, and varicella.

Immunization Law: Minnesota Statutes, Section 121A.15, requires all students enrolling in an elementary or secondary school to show evidence of immunization or a legal exemption for medical reasons or conscientiously held beliefs. Immunization Information: <http://www.cdc.gov/vaccines/> <http://www.immunize.org/>

Exemptions to this law may be made by:

- A statement from a physician indicating that the immunization is contraindicated for medical reasons
- A laboratory confirmation of the presence of adequate immunity, or
- A notarized statement signed by the minor child's parent/guardian or by the emancipated person because of a conscientiously held belief.

Immunization Form: This form (or one with similar information) is required of every student in school. It provides dates of all immunizations received. It also provides exemption information. Print this form out to take to your next doctor's visit.

Please keep your child home until they are fever free for 24 hours without medication. In addition, if your child is vomiting or has diarrhea, please wait 24 hours after their last episode before returning to school.

Medication Policy

For the safety of students, it is recommended that medication be given at home whenever possible. For example, medication prescribed three times a day can be given before school, after school and at bedtime. If medication must be given during school hours, we want you to be aware of the following school medication policy:

1. Prescription Needed. School personnel can only give medication with the written order of a health care provider that is licensed to prescribe and the written consent of a parent/guardian.

2. Medication must be brought to school in a container labeled by the pharmacy.

The following information must be on the label:

- Child's full name
- Name and dosage of medication
- Time and directions for administration
- Physician's name
- Current date

3. Medications should be brought to school by a parent/guardian or a responsible adult. If there is medication remaining after treatment or at the end of the school year, please make arrangements for it to be picked up.

4. Ask the pharmacist to put the medication in two containers, one for school and one for home.

5. Mixed dosages in a single container will not be accepted for use at school (for example, 5 mg and 10 mg tablets in the same bottle).

6. All medication administered at school will be kept in a locked cabinet(except when a student has permission to carry their medicine with them. See #7).

7. Students can carry medicine with them (for example, an asthma rescue inhaler) if they have written consent from parent/guardian and health care provider (including the request for the student to self-carry) and the school nurse has met with the student and checked that they can safely and successfully carry their own medicine.

8. A new medication consent form is required:

- When the dosage or time of administration is changed
- At the beginning of each school year
- If discontinued medication is restarted

9. Parent/guardian must notify the school in writing when the medication is discontinued.

Over the Counter. No Tylenol or over-the-counter medication can be given to children unless the above procedures are followed. Over-the-counter medications must be in the original container with dosing recommendations visible.

10. It is the joint responsibility of the parent/guardian, student, and school personnel to see that the medication is given at the right time.

Although our elementary students generally dress appropriately, trends such as wearing pants below the waist, exposing underwear, is not acceptable. Student's dress/appearance must not be disruptive to the educational process. STAYING IN DURING NOON RECESS

Parents are reminded to have their children dress appropriately so they can comfortably spend time outdoors in the morning and during noon hour. Physical exercise a child receives while on the playground gives them an outlet for energy, tension release, and contributes to better attitudes and behavior in the classroom.

We evaluate the weather on cold days, taking into consideration wind chill factors, etc. and either cancel or limit the time children spend outdoors.

Physicians at the local clinic have been contacted and support the following: "If children are adequately dressed for the weather and are well enough to be in school, they should be able to play outdoors for intervals without endangering their health." Therefore, if your child is to stay indoors during the noon hour, a written note from the parent needs to be sent.
