

Fall 2026

\

Openings for the Fall Trap season are now available. Must be 12 years old and possess a MN DNR Firearm Safety Certification completed.

Registration MUST be completed by September 6 and joining the USA Trap Team League a \$40 fee is required. Season will start September 13, 2026 at the East Range Sportsman's and Conservation Club in Aurora, MN at which time team fees will be collected for the season.

There is limited space as we cap the League Team at 30. This is due to coaching limits by the League.

As always we shoot Monday afternoons at 4 PM at the East Range Sportsmen's Club, in Aurora till everyone has completed 2 rounds of 25 targets. This is a team sport and everyone is expected to stay till cleanup and equipment put away.

The fee for shooting this year is \$60 for the League. This is a reduced fee because of fundraising by the parents group which all participants will be expected to help raise funds to keep the program cost efficient and running smoothly.

The fee helps pay for shells and clay targets. There is a limited number of shotguns available but your own is preferred. A 12 or 20 gauge with at least a mod. Choke and other chokes available. Depending on student, shooting 50 shells a night makes an autoloader preferable. Must be able to mount shotgun to shoulder without straining to hold barrel up.

Must be student at one of these schools, as league requires it.
